Overview of Investment Manager and the Fund

The funds are invested in the Sculptor Overseas Fund II, Ltd (the "Offshore Fund"). The Offshore Fund invests all of its investable assets in Sculptor Overseas Intermediate Fund II, LP, a Cayman Islands exempted limited partnership (the "Intermediate Fund"), which in turn may invest its assets directly (including through wholly owned subsidiaries) or through Sculptor Master Fund, Ltd., a Cayman Islands exempted company serving as a master fund (the "Master Fund", together with the Offshore Fund, the Intermediate Fund, each an the "Fund" and, collectively, the "Funds"). The Fund's investment objective (through its investment in the Intermediate Fund and its indirect investment in the Master Fund) is to achieve consistent, absolute returns with low volatility primarily by seeking to exploit pricing inefficiencies in equity and debt securities. The following is an overview of the Investment Manager and the Fund:

- **Background of Investment Manager:** Sculptor Capital, founded in 1994, is a leading global alternative asset management firm, providing investment solutions across core capabilities in Multi-Strategy, Credit and Real Estate. With offices in the US, Europe and Asia, Sculptor Capital serves global clients through commingled funds, separate accounts and specialized products, totaling approximately $34.9 billion in assets under management as of March 1, 2024. With capabilities spanning all major geographies, Sculptor Capital's distinct investment process seeks to generate attractive and consistent risk-adjusted returns across market cycles through a combination of fundamental bottom-up research, a high degree of flexibility, a collaborative team and integrated risk management.
- **Fund Overview**: Global, bottom-up best ideas approach which sources investments from five distinct investment capabilities across North America, Europe and Asia. Our integrated risk approach then applies a top-down framework to portfolio construction and risk management.
- **Fund Performance**: Since its inception on September 1994, the Fund has recorded an annualized net return of 10.7% and an annualized volatility of 6.2%, while MSCI World Index and HFRI Fund Weighted Composite Index have recorded an annualized net return of 8.7% and 7.5%, respectively, during the same period. Corresponding annual volatility 14.0%, 6.7%. Introduction to Sculptor Master Fund

Objective	The Sculptor Master Fund (SCMF) targets net returns of 500-700 basis points in excess of the risk-free rate of return across market cycles, with a fraction of the volatility of global equity markets[1]	
Investment Strategy	Global, bottom-up best ideas approach which sources investments from five distinct investment capabilities across North America, Europe and Asia. Our integrated risk approach then applies a top-down framework to portfolio construction and risk management.	
	Fundamental Equities	Employ a rigorous fundamental research process to generate investment ideas across global equity markets with medium to long-term time horizons
	Merger Arbitrage	Pursue mispriced opportunities in announced M&A transactions as well as those resulting from a wide range of other corporate actions
	Corporate Credit	Highly opportunistic approach to corporate credit with investments ranging from performing credit, to dislocated securities, to event-driven and distressed situations
	Structured Credit	Invest across the breadth of the structured product universe, employing legal and structural expertise to proactively influence outcomes
	Convertible & Derivative Arbitrage	Primarily focused on arbitrage opportunities that capture mispricing across the convertible, volatility, and SPAC universe
Team & Experience	**16 year average tenure of senior investment leadership** with a proven track record of generating attractive risk-adjusted returns across multiple market cycles **More than one hundred global investment professionals** with specialized investment expertise across the US, Europe and Asia **Aligned incentives that support a highly collaborative culture**	

Investment Approach

Fundamentally Driven	Idea Generation Built on Disciplined Bottom-Up Fundamental Analysis
Opportunistic	Access a Broad Investable Universe Without Artificial Constraints or Biases
Best Ideas Portfolio	Dynamically Allocated to the Most Attractive, Risk Adjusted Opportunities
Cross-Asset Class Synergies	Cross-Fertilization of Views and Perspectives Between Asset Class Specialists Augments Investment Insights and Risk Taking
ESG Integrated	Identify ESG Risks and Opportunities Utilizing both Proprietary and Market-leading Third-party Research to Assess Company-specific ESG Factors
Active Risk Management	Integrated and Active Risk Management Framework uses Proprietary Quantitative Tools to Ensure a Cohesive and Optimized Portfolio while Maximizing Risk/Reward
